

ESENCIAL3io=

ESENCIAL3io=
an incredible experience for and with the audience.

"The adventure of a journey without the weight of luggage, free to change destination at any time, chasing the scent of essences".

A one-of-a-kind adventure with musical notes that will be dictated by the audience.
An adventure that starts from the desire to meet, be together and make music, to return to the essence of living after this pandemic time.
This concert will be a unique and unrepeatable event, precisely because it will come out of the resonance with the people: a smile, a look, a movement, will be translated into Music that flows like a source directly from the heart.

ESENCIAL3io=

a name that wants to express the fusion and interrelation of 3 personalities for a new way of telling and making music:

Marco Cappelli - guitars

Giovanni Imparato - percussions & voice

Louis Siciliano - synths, keyboards & electronica

"ESENCIAL3io= we are one, music and audience"

this is how the components of this trio tell each other, three acclaimed artists known all over the world who, starting from the center of the Mediterranean, where they have their roots, will spread the musical essences coming from the most remote corners during their concerts which are a real Magic&Unique Experience.

After the European tour that starts from Rome on August 28th, ESENCIAL3io= is preparing for a long tour in United States.

An experience of healing the Soul, an opening to the Joy of Music.
